### **Argentina Good Soil Training...**

Bags are unpacked, suitcases are stored in the closet, laundry is caught up and I have had time to reflect upon what God did in Argentina. Two thoughts immediately come to mind. The first one is "God was so good!". We were blessed to train over 60 pastors and believers in two different workshops. The first workshop took place in the city of Lobos and lasted two and half days. It consisted of the Good Soil Evangelism and Discipleship training and a training the trainer session. In other words, not only did 36 people take the training but almost every single one of the them was trained on how to conduct a workshop and train others! Imagine how God will use those two and half days to further the work of the Gospel in Argentina! The second workshop was a mini-version that we taught on Sunday afternoon at a church in Buenos Aires. 26 people were exposed to Good Soil materials and challenged to pray for 5 people they personally know who need to be evangelized and 5 others who need to be disciplined. It was an incredibly encouraging time - God was so good! The second thought that comes to mind is "people were praying!" Logistically, the trip went off without a hitch. Organizationally, the training sessions were well planned, the participants were super involved in the activities, and the instruction was well received. There were some modifications that had to be made but, even in all of

that, it was clearly evident that there were people praying for us (the instructors) and the participants. So, thank you. Thank for you praying! You prayed and God worked!

More pictures and video - search "e2hispanicministries" on Instagram and Facebook.

This week, Tammy is at ABWE International Headquarters in Harrisburg, PA where she will be trained as a Good Soil workshop leader. We are looking forward to using Good Soil, in both English and Spanish, to help equip churches to reach the lost in their communities and disciple the believers in their churches. If your church is interested, let us know how we might be able to serve your church in this way.

Praise:

- The Good Soil trip to Argentina went super well.
- Tammy is currently taking the training.

Prayer:

- Salvation of R and M.
- Salvation of C and R.
- Plans to do two Good Soil seminars in the spring.
- Since E2 hispanic ministries is in the beginning stages, pray for more contacts and relationships among the Hispanic community in NC.
